

**Performance Note**  
**HB3001 - Utah Medical Cannabis Act**  
 Sponsor: Rep. Hughes, Gregory H.

Performance Note Report

---

Author: Debbie Lyberger  
 Agency: Department of Agriculture and Food

Funding For:

---

New Services or Benefit

Public Benefit:

---

Purpose: Implement new legislation stemming from Proposition 2 and the new Utah Medical Cannabis Act.

Services: DAF is responsible for developing administrative rules and procedures for growing and processing cannabis, the transportation of product and the testing of product. These services will require significant administration, inspection, and employee resources.

Expected Outcome: Develop rules, work with Department of Health to procure and Electronic Verification System, hire staff and issue licenses prior to January 1, 2020.

Implementations and Resources: At the time this performance note is being drafted, the department is working on the fiscal note pending a final numbered version of the bill. The department will incur costs to implement this bill and Proposition 2, for which funds have not yet been appropriated.&nbsp;

How: Proposed activities will allow for the medical cannabis program to be implemented and patients to have access to medical cannabis.

Performance Measures
